2004 Greenspring Drive
Timonium, MD 21093
410-252-7373

The Maryland concrete industry has again joined with **Maryland State Highway Administration** and **Federal Highway Administration** to plan and present the 12th Annual Concrete Conference (CONCRETE 2012) for the Maryland Transportation Industry. The conference will provide a one-day forum of technical seminars where you can learn about and discuss applications for Portland Cement Concrete for highway projects.

CONCRETE 2012 is being presented by the Maryland Ready Mix Concrete Association (MRMCA), the American Concrete Pavement Association (ACPA), the Federal Highway Administration (FHWA) and the Maryland SHA Office of Materials and Technology. Members and staff from these agencies serve on the steering committee to plan and execute this event.

Our conference each year reaches an audience of representatives from FHWA and Maryland SHA Offices in the areas of Highway Design, Bridge Design, Landscape Architecture, Environmental Design, Materials and Technology, Maintenance, and Construction. Concrete 2012 will also attract Consulting Engineers, County / Municipal Government DPW's, and other key decision makers. Additionally, MRMCA, Maryland Transportation Builders & Materials Association (MTBMA), ACI and ACPA members will be invited.

To show industry support and to help offset the cost of this event, we are encouraging you to purchase exhibit space. This year, we are asking our vendors to set up an exhibit booth inside the hotel displaying products / services from the cement and concrete industry. Breakfast, lunch and all refreshment breaks will be held in and around the exhibit area.
