

**The 26th Annual Maryland Concrete Conference & Maryland Women in Concrete (MWIC)  
The Hotel at Arundel Preserve, Arundel Mills, MD | March 24th & 25th, 2026**

**EXHIBITOR INFORMATION**

**Advance® (A Terex Brand)**

**50 YEARS OF INNOVATION**

Terex® Advance front discharge mixers have led the industry with cutting-edge innovation and superior engineering that helps improve your bottom line. Founded by several Midwest ready-mix producers 50 years ago, we have a unique understanding of your needs and that means providing you with more standard features and a host of customized options that bring value to you and your business.

We combine our experience in the industry, and input from customers to manufacture mixers that support you on the road to success. You can trust in the durability of our Terex Advance Trucks for the success of your ready mix operation, year after year.

**Central Atlantic Precast Concrete Association (CAPCA)**

CAPCA Mission Statement: The Central Atlantic Precast Concrete Association is dedicated to the expanded use of precast concrete. We will educate specifiers and users as to the advantages and effective utilization of precast concrete products and systems. We will represent the industry in the Central Atlantic area

**Con-Tech Manufacturing, Inc.**

Con-Tech Manufacturing, Inc. is a family-owned company proudly built in the USA. We blend traditional values with innovative technology to design mixers with the customer in mind, continually investing in our people, partnerships, and processes to build the best in the industry.

**CTS | Rapid Set®**

CTS manufactures Rapid Set® Calcium Sulfoaluminate (CSA) Cement. Rapid Set® CSA cement is used in a full line of professional-grade cement products engineered for high performance, rapid strength gain, versatility, low shrinkage and durability.

Since Rapid Set achieves structural strength in one to two hours, you can quickly put the structure into full service, save time and money, and achieve durable, long-lasting results.

Rapid Set products have been used on notable landmarks like the Hoover Dam Bypass, the Pentagon, the Lincoln Tunnel, the San Francisco-Oakland Bay Bridge, as well as major roadways, airports, commercial and industrial projects worldwide.

**DY Concrete Pumps**

Founded in 2015, DY Concrete Pumps North America is a premier manufacturer of concrete pumps, proudly headquartered in Dallas-Fort Worth, Texas. DY has earned a reputation

across North America for building reliable, robust machines for demanding jobsites. The true difference between DY and other options is our dedication to service. When customers buy from DY, they are joining a family of industry veterans committed to long-term support. From mobile service to 24/7 emergency support from real technicians, we stand beside our customers to keep their machines running smoothly, no matter the conditions.

### **Hunt Valley Contractors**

Hunt Valley Contractors is a Maryland-based specialty contractor delivering durable, high-performance solutions for infrastructure, transportation, and public works projects throughout the Mid-Atlantic. With decades of experience supporting government agencies, municipalities, and engineering teams, HVC is trusted for its expertise in **architectural and decorative concrete**, including **form liners, concrete staining, and specialized finishes** for bridges, highways, and civic structures.

Known for a collaborative, solution-driven approach, Hunt Valley Contractors works closely with owners, engineers, and inspectors to ensure constructability, long-term performance, and compliance with project specifications. Our team brings deep field knowledge, responsive project support, and a commitment to quality that helps clients deliver infrastructure built to last.

### **Maryland Chapter ACI**

The American Concrete Institute's Maryland Chapter: Concrete Education & Certifications | Technical Advocacy and Support | Scholarships | Project Awards | Social Events. We are engineers, architects, contractors, educators, material & equipment suppliers, producers, & students advancing concrete knowledge and community.

### **Specialized Engineering**

Established in 1992, Specialized Engineering has been providing industry leading Geotechnical Engineering, Laboratory Testing & Analysis, Construction Management & Inspections, Construction QA/QC, and Environmental Consulting Services on projects in MD, VA, WV, DC, and PA. Now in our 34th year of service, Specialized Engineering has a high level of materials testing & inspection, construction management and geotechnical experience in the Central Maryland Area. The knowledge we have developed over the years has been on projects for the federal government, state agencies, county public works departments, local municipalities, school districts, and other private and public clients.

**Specialized Engineering** consists of over 90 Engineers, Geologists, construction inspection field technicians, laboratory specialists, laboratory technicians and administrative staff. Headquartered in Frederick, MD, Specialized Engineering also has an additional, full-service laboratory located in Hanover, MD.

Our services are organized into five primary divisions:

- **Construction Materials Testing and Inspection**

- **Laboratory Testing and Analysis**
- **Geotechnical Analysis and Design**
- **Geophysical Services**
- **Environmental Consulting Services**

### The Quikrete Companies

An industry pioneer known for its iconic and unmistakable yellow bag of concrete mix, The QUIKRETE® Companies was founded in 1940. Over the last 85 years, The QUIKRETE Companies has strategically acquired leading brands that allow us to be a single source of supply for nearly every element of any construction project. Our brands have earned a reputation for quality, consistency, and performance, making us a reliable choice for commercial and residential building, repair, and rehabilitation products. As we continue to contribute to the growth and health of our country's structure and infrastructure, we truly are What America's Made Of®.
